***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7, 10, and 12-27 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Okita et al (US 4,734,112) substantially as set forth in Paper no. 11.

***Response to Arguments***

3. The art rejections over Kowligi have been overcome by the present argument.
4. The art rejections over Okita have been maintained for the following reasons. At the first place, Applicant's arguments are not commensurate in scope with the claims. They are not included in the claims. The limitation of unfocused laser beam applied to an expanded PTFE surface needs to be included in the claims. Further, the declaration is also needed to show that the unique expanded PTFE surface of the present invention can only be achieved by using an unfocused laser beam but not focused laser beam.

***Conclusion***
